OPERATION
1. Turn the meter on by pressing the POWER button.
2. Take the desired measurements.
3. Turn the meter off by pressing and holding the POWER button.

SELECTING °F OR °C (Temperature/Dew Point)
1. Turn the meter on by pressing the POWER button.
2. Press and hold the SET button until "frozen" so that they may be recorded.
3. Release the SET button "frozen" so that they may be recorded.

TO ENTER THE RECORD MODE (Min/Max Memories)
1. Turn the meter on by pressing the POWER button.
2. Press and hold the FUNCTION button until "MIN" or "MAX" no longer appear on the display.
3. The first press of the REC/ENTER button displays the minimum reading entered since the entering recorded mode.
4. The second press on the REC/ENTER button displays the maximum reading entered since the entering recorded mode.
5. To return the display to the current reading, press the HOLD/ESC button.

BATTERY REPLACEMENT
An erratic display, faint display, no display, or a battery icon appearing on the display are all indicators that the battery needs replacement. Remove the battery compartment screws. Lift out the battery compartment. Replace the exhausted battery and replace it with a new 9 Volt alkaline battery. Replace the battery compartment and tighten the screws securely.
